OPERATORS

- 1 TAPE**
Cost effective solution for interior applications such as residential and counter shutters.
- 2 TAPE WINCH**
Similar to above tape operation, but is rated for larger and heavier shutters.
- 3 COUNTER BALANCE**
For manual push up/pull down operation. We use only high quality torsion springs mounted within the axle.
- 4 CABLE WINCH**
Manual operation for large and heavy shutters.
- 5 CRANK ROD**
Precision gear driven roll shutters are smoothly operated by a crank rod, which effortlessly clips on or off in seconds.
- 6 ELECTRIC MOTOR**
Most desired! Internally concealed motor provides visually pleasing appearance. Easy operation by a variety of controls: rocker switch, key switch and remote control.

LOCKING MECHANISMS

- SLIDE BOLT**
Cost effective and reliable
- KEYLOCK**
1-1/8" mortise cylinder
Assure Safety, Medeco, Best, etc.
- INTERNAL LOCKING**
Prevents manual lifting of shutter
- THUMB TURN**
Heavy duty without a key
