

High Quality Custom Shading Systems

Improve the quality of your living space

At Brading we install only the finest quality products from the most reputable and recognized manufacturers including Hunter Douglas, Silent Gliss and Lutron. We also guarantee our installation and workmanship.

Specialized Applications

At Brading we specialize in three key areas that add quality and value to your home:

Energy Efficient Shading Systems

Shades can help you improve energy conservation and cost savings. Our products can help you:

- Reduce summer heat gain by up to 78%
- Reduce harmful UV light by up to 99.5%
- Reduce winter heat loss by up to 84%
- Significantly reduce glare

Difficult Applications

We're experts at installing unique window shade designs in difficult or hard to reach applications such as skylights, solariums and bay windows.

Motorization and Home Automation

The trend today towards home automation creates many opportunities to motorize your window coverings.

- Motorization of any window covering
- Control by wall switch, remote, wind and sun sensors, and timers
- Full integration with all home automation systems
- All necessary electrical requirements
- Customized programmable logic controllers (PLC)
- Contact closure, RS232 or USB interface
- Custom painted hardware

Expert Installation

We offer high quality window shading products with expert installation to help you realize your own vision of comfortable, energy efficient living space.

Style

Create your own style with colours that are warm, cool, or a combination that is all your own look – classic or contemporary.

Make your window coverings part of your overall home décor – with dozens of shapes, colours, and styles to choose from, we can help you integrate your window shades into any room design.

Window Shape

Rectangular, arched, or trapezoidal – we have shades for any shape of window.

Environmental Requirements

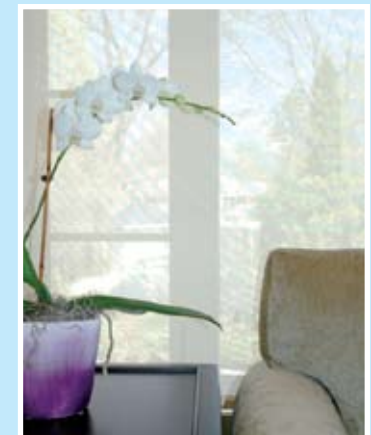

We can show you a wide variety of window coverings that control heat transfer to save energy costs.

Automation

At Brading, we're experts in integrating motorized window shades for home automation systems – beautiful, efficient, and quiet shades for any window design.

*Brading Specialty Shades
– a unique blend of design,
functionality, efficiency, and
energy conservation.*

Testimonials

"I would like to express my most sincere appreciation for your commitment to outstanding service. The custom made blinds you so carefully installed in my condo look magnificent and your willingness to continuously follow-up was very impressive and a clear indication of your professionalism."

Elise Kalles

"The finished product has far surpassed my expectations! The colour, style and design are perfect for my home. I also wish to compliment your expert installers who took the care I expect when a contractor is working in my home."

Sue Miller

"We paid for a first-class product and installation and that is exactly what we got ... good value for our money. Everything was installed with much neatness, attention to detail and quality workmanship."

James B. Slater

"The motorized shades which you installed are performing beautifully. In my dealings with you I have found you to be knowledgeable and competent and the project was completed in a timely and efficient manner. I'm very pleased with your work and would not hesitate to recommend you highly."

L. Finkelstein, P.Eng

"We have been very pleased with the installation of the Duette blinds throughout our home. We have received many compliments regarding these shades. We chose you because you knew your product and you had exceptional knowledge regarding motorized installations. Your post installation service has been excellent and we will not hesitate to recommend you to any of our friends."

Margaret and Reg Swain
