Testimonials

"I would like to express my most sincere appreciation for your commitment to outstanding service. The custom made blinds you so carefully installed in my condo look magnificent and your willingness to continuously follow-up was very impressive and a clear indication of your professionalism."

Elise Kalles

"The finished product has far surpassed my expectations! The colour, style and design are perfect for my home. I also wish to compliment your expert installers who took the care I expect when a contractor is working in my home."

Sue Miller

"We paid for a first-class product and installation and that is exactly what we got... good value for our money. Everything was installed with much neatness, attention to detail and quality workmanship."

James B. Slater

"The motorized shades which you installed are performing beautifully. In my dealings with you I have found you to be knowledgeable and competent and the project was completed in a timely and efficient manner. I'm very pleased with your work and would not hesitate to recommend you highly."

L. Finkelstein, P.Eng

"We have been very pleased with the installation of the Duette blinds throughout our home. We have received many compliments regarding these shades. We chose you because you knew your product and you had exceptional knowledge regarding motorized installations. Your post installation service has been excellent and we will not hesitate to recommend you to any of our friends."

Margaret and Reg Swain

Architectural Shading Systems

Brading Specialty Shades – a unique blend of design, functionality, efficiency, and energy conservation.

www.brading.com

Established in 1979, Brading Specialty Shades is an expert supplier and installer of custom shades and movable window insulation for architectural and design applications. Our clients include some of the most unique and prestigious residential and commercial buildings in Canada and the United States.

We understand window shading and are experts in difficult applications such as skylights, solariums, and unusual angles and locations. Our expertise and experience allows architects, designers, builders and home automation firms far greater ability to incorporate window shading for unusual designs and greater creative freedom.

SPECIALIZED APPLICATIONS

At Brading we specialize in three key areas that add quality and value to both residential and commercial applications.

Energy Efficient Shading Systems

Brading shades can help improve energy conservation and cost savings. Our products will help:

- Reduce summer heat gain by up to 78%
- Reduce harmful UV light and glare by up to 99.5%
- Reduce winter heat loss by up to 84%

Motorization and Home Automation

The trend today towards automation in residential and commercial buildings creates many opportunities to motorize window shades. We offer:

- Motorization of any window covering
- Control by wall switch, remote, wind and sun sensors, and timers
- Full integration with all home automation systems
- All necessary electrical requirements
- Customized programmable logic controllers (PLC)
- Contact closure, RS232 or USB interface
- Custom painted hardware

Difficult Applications

We're experts at installing unique window shade designs in difficult or hard to reach applications such as skylights, arches, and bays.

High Quality Custom Shading Systems

At Brading we install only the finest quality products from the most reputable and recognized manufacturers including Silent Gliss, Hunter Douglas and Lutron. We guarantee our installation and workmanship.

We can help you enhance the value you are able to provide for your clients in several ways:

QUALITY AND RELIABILITY

Our products are top quality and will provide years of reliable service for your clients.

EXPERT INSTALLATION

Our installers have years of experience in ensuring that installations are done properly to eliminate problems and call-backs and achieve the highest customer satisfaction throughout the life of the products.

ENVIRONMENTAL REQUIREMENTS

We offer a wide variety of window coverings that control heat and light transfer to save energy costs.

AUTOMATION

At Brading, we're experts in integrating motorized window shades for home automation systems – beautiful, efficient, and quiet shades for any window design.

WINDOW SHAPE

Rectangular, round, oval, or curved – we have beautiful coverings for any shape of window, including arches, bays, and skylights.

INNOVATION AND CREATIVITY IN DESIGN

Create styles with colours that are warm, cool, or a combination for unique designs that will delight your clients – classic or contemporary. We can accommodate any design or unusual application – many of our products are custom made and we work with our suppliers to ensure delivery to specifications.
